AABB Quality Management Systems Certification Consulting

Last reviewed October 2026 · https://www.integralhs.com/aabb-quality-management-systems-certification

What to have ready

The element names below are AABB's Quality System Essentials. The records listed under each are IHS's suggestion of the evidence to gather, not an AABB list.

- AABB's answer to the eligibility determination (AABB [https://www.aabb.org/standards-accreditation/quality/quality-management-systems-certification]).
- Personnel records: roles, qualifications and training, for the personnel element of the Quality System Essentials (AABB [https://www.aabb.org/standards-accreditation/quality/quality-management-systems-certification]).
- Equipment records: inventory, qualification and maintenance, for the equipment element (AABB [https://www.aabb.org/standards-accreditation/quality/quality-management-systems-certification]).
- Written procedures for each operation you perform, for process control (AABB [https://www.aabb.org/standards-accreditation/quality/quality-management-systems-certification]).
- A document control system and record retention practice, for documents and records (AABB [https://www.aabb.org/standards-accreditation/quality/quality-management-systems-certification]).
- A description of the systems that hold your data, for information management (AABB [https://www.aabb.org/standards-accreditation/quality/quality-management-systems-certification]).
- Deviation and nonconformance logs, for occurrence management (AABB [https://www.aabb.org/standards-accreditation/quality/quality-management-systems-certification]).
- Internal audit or assessment records, for assessments (AABB [https://www.aabb.org/standards-accreditation/quality/quality-management-systems-certification]).
- Corrective action and improvement records, for process improvement (AABB [https://www.aabb.org/standards-accreditation/quality/quality-management-systems-certification]).
- A named owner for the onboarding self-assessment and for completing corrective actions after the assessment (AABB [https://www.aabb.org/standards-accreditation/quality/quality-management-systems-certification]).
