ACS Quality Verification Program Consulting

Last reviewed October 2026 · https://www.integralhs.com/acs-quality-verification-program-readiness

What to have ready

Each item ties to the ACS QVP pages read on October 3, 2026.

- The *Optimal Resources for Surgical Quality and Safety, 2026 ACS QVP Standards*, with the effective date checked on the standards page [https://www.facs.org/quality-programs/accreditation-and-verification/acs-quality-verification-program/program-standards/].
- A choice between Focused and Comprehensive Verification (levels page [https://www.facs.org/quality-programs/accreditation-and-verification/acs-quality-verification-program/levels-of-participation/]).
- A target visit date that leaves the lead time the levels page sets for your level.
- Your NSQIP participation status, which affects how Focused Verification fees are handled (levels page, summarized).
- A named owner for the Hospital Pre-Review Questionnaire (levels page).
- Named owners for each Surgical Specialty PRQ: two for Focused, every specialty for Comprehensive (levels page).
- For Focused Verification, the two surgical specialties that will take part in deep-dive sessions (levels page).
- Surgical quality committee records and improvement-project records that show the standards' 12 elements in operation (standards page).
- Patient records available for the chart review: 10 files for Focused, 20 for Comprehensive (levels page, summarized).
- A named person to apply through the ACS Quality Portal [https://qualityportal.facs.org/qport/apply/ACSQVP].
