

Counseling Compact Multistate Practice Operations for Behavioral Health Groups

Last reviewed October 2026 · <https://www.integralhs.com/counseling-compact-multistate-practice-operations>

What to have ready

This is IHS's planning list, built from the Counseling Compact Commission site [<https://counselingcompact.gov/>] page opened October 6, 2026, and not from any statute, rule or state board policy.

- A roster of each clinician's home state license, title, license number and expiration date.
- The state where each clinician lives and the states where each sees clients.
- The current list of live states from the Commission's page, with the date you checked it.
- Which clinicians are licensed to assess, diagnose and treat independently, and which are still completing supervised hours.
- Each clinician's privilege number and privilege expiration date, taken from the clinician's own dashboard once issued.
- A calendar of home state renewal dates, since a privilege does not update when the home license renews.
- Your credentialing policy and your credentialing committee's charter.
- The employer, online platform and insurance company policies on use of a privilege that you already hold.
- Your payer list and your current payer enrollment procedure.
- Any marketing copy that names states where you offer services.
- Your counsel's answers on how the Compact applies to your group.
- The name of the person who will own the tracking record.
