New Jersey Integrated Outpatient Licensing Consulting (N.J.A.C. 8:43K)

Last reviewed October 2026 · https://www.integralhs.com/nj-integrated-outpatient-licensing

What to have ready

Each item ties to N.J.A.C. 8:43K as adopted (notice dated April 6, 2026) or to the DMHAS overview deck.

- Every current license your organization holds, and the date any pending application was received, since the deck treats applications received before April 6, between April 6 and May 1, and after May 1, 2026 differently (DMHAS deck [https://nj.gov/humanservices/dmhas/documents/pdf/events-meetings/2026/Integrated-License-and-Rules.pdf]).
- A blank Form CN-7, the application the deck names. DOH's forms page lists CN-7 under the title “Application for New or Amended Acute Care Facility License” (last updated April 10, 2026), and the adoption notice treats CN-7 as the general license application form added at N.J.A.C. 8:43E-5.7; confirm with the Department, through your organization, that you are using the current version for an outpatient or integrated application.
- Your current policies and procedures for each service, to be revised so they “align with 8:43K” (DMHAS deck).
- For behavioral health services, your policies mapped to N.J.A.C. 10:36, Behavioral Health Program Service Standards, as well as 8:43K.
- A list of every service at every location, because 8:43K-2.8(d) charges “an additional fee for each service that a licensee provides at each facility location” (adoption notice [https://www.nj.gov/health/legal/documents/adoption/8_43K%20NOA.pdf]).
- Any alternate care location or mobile van, each of which carries its own fee line in 8:43K-2.8(d).
- Names of your medical, mental health and addiction leads who will approve clinical policies.
- If you are a mental health services facility changing or adding a location, or a new applicant for mental health services facility licensure, a plan for the policy review and program site tour that a temporary license under 8:43K-2.5(f) depends on.
- A list of any rule you expect to request a waiver of, with the waiver application fee in 8:43K-2.8(g)4.
