# IAC Vascular Interventional Accreditation Consulting

Last reviewed October 2026 · https://www.integralhs.com/vascular-interventional-accreditation

## What to have ready

Items cite the IAC Vascular Interventional Accreditation Checklist [https://intersocietal.org/wp-content/uploads/2026/04/IAC_VI_Accreditation_Checklist_2026-System.pdf] (updated 4-10-2026) unless noted.

- The procedural areas you will apply for: Vein Center, Deep Venous, Hemodialysis Access or Peripheral Arterial (IAC [https://intersocietal.org/programs/vascular-interventional/]).
- A named Medical Director (MD or DO), as the IAC Standards & Guidelines for Vein Center Accreditation [https://intersocietal.org/wp-content/uploads/2026/05/IACVeinCenterStandardsMay2026.pdf] (May 1, 2026) requires.
- Evidence that your venous duplex testing is done at a facility accredited by IAC or ACR (IAC Standards & Guidelines for Vein Center Accreditation [https://intersocietal.org/wp-content/uploads/2026/05/IACVeinCenterStandardsMay2026.pdf] (May 1, 2026)).
- A roster of every physician, advanced practice provider and nurse who performs venous interventions, since all must be included in the application (IAC Standards & Guidelines for Vein Center Accreditation [https://intersocietal.org/wp-content/uploads/2026/05/IACVeinCenterStandardsMay2026.pdf] (May 1, 2026)).
- A procedure complication log for each operator, recording the outcomes and complications of that operator's procedures patient by patient.
- Procedure protocols, one per procedure. IAC ties this item to Standard 1.9B and expects each protocol to cover patient selection, work-up before the procedure and outcome reporting.
- Minutes of your QI meetings, with at least two meetings held each year (Standard 3.1C).
- If you use fluoroscopy, a physicist report on file for every fluoroscopy unit.
- Case studies prepared for the site visit, which the checklist says are due at that time.
